

BACKHOE AT CAMP

Photo: All in a day's work: getting the camp road usable.

The road to Christ can be difficult, and for the many who meet Him at Hidden Creeks Bible Camp, it certainly is! Even the few who have led simple lives, find the bumps jolting on the footpath that has been turned into a rustic road.

Camp Road has been a non-stop project since the property was purchased in 2012. Shovels, machetes, and the skid steer require countless hours to help secure the usability of the road. One afternoon of Amazon rain can wash away days of work and strand us at camp until more time is spent to repair the road. This ongoing maintenance can turn into a distraction, taking precious time from ministry.

We are working to raise money to buy a backhoe, which will grant swift solutions for digging trenches and smoothing the road. It will also assist in the many construction projects at church and camp.

Will you help smooth the path for people to give their lives to Christ and grow in their faith?

COST: \$110,000
