

BUILDING EXPANSION

FUTURE PLANS

Recently God provided a way for us to purchase some land attached to the backyard of Lifeline Ministry's facility. Our sanctuary has been filling up to capacity and while we plan to add a second service, our hope is to extend the Sanctuary space by transforming our yard into an addition on the back of the building.

THE BIG PICTURE

Our first step will be to take down the current walls and build the foundational wall so we can move our kitchen into that space, extend our Sanctuary and eventually build on the addition for all three levels as our ministry grows.

We want to make changes with future ministry in mind. Will you consider helping us plant these seeds?

COST: \$35,000 for the demolishing, rebuild of wall, and cleaning up the yard areas
